ABOUT ME

My name is Muhammet Alper Sayılır, and I was born on May 24, 2002, in Gaziantep, Turkey. I completed my high school education at Gülşen Batar Anatolian High School graduating with honors in 2019. In 2020, I began my English-taught Computer Engineering studies at Hasan Kalyoncu University with a full scholarship. Throughout my university years, I was an active student, both as a member and a core team member in various clubs, including the Erasmus Student Network HKU, Game Factory HKU, and HKU Sports Clubs. During my university education, I developed my skills in Python, C, C++, C#, HTML, CSS, JavaScript, Oracle SQL, Unreal Engine, Unity, Blender, Arduino, and robotics. I had the opportunity to participate in the Erasmus+ exchange program at the University of Ostrava in the Czech Republic in both 2022 and 2024, which significantly enhanced my problem-solving abilities and allowed me to work effectively with multicultural teams, ultimately broadening my horizons.

MANAGEMENT AND LEADERSHIP SKILLS

Core Team Member of Game Factory Student Club

Game Factory Clubs is a university community that aims to bring together participants who are interested in game development, entrepreneurship, and innovation, and who are interested in the leading names in the gaming industry. As a Core Team member, I actively leverage my leadership and people management skills to contribute to the growth and success of the club.

Responsibilities and Experiences:
- **Project Management and Coordination:** I am responsible for managing and coordinating projects within the club. From inception to completion, I oversee the processes and ensure team members are motivated and engaged.
- **Team Leadership and Development:** I guide team members by recognizing their strengths and assigning tasks accordingly to maximize everyone's potential. By fostering an environment where each individual can express themselves, I strengthen team communication.
- **Decision Making and Problem Solving:** I lead effective decision-making processes and devise innovative solutions to challenges that arise. I focus on the club's objectives and utilize strategic thinking skills to drive initiatives forward.
- **Effective Communication and Collaboration:** I facilitate transparent communication within the team, ensuring everyone has access to information and encouraging open dialogue. By integrating diverse perspectives, I foster the creation of comprehensive and innovative projects.

Through these experiences, I not only contribute to the successful completion of projects at Game Factory but also continuously enhance my leadership and people management skills, laying a solid foundation for our club's future achievements.on...
